Graduate Software Developer

Location: Montreal, QC (Hybrid, 3 days on-site)

Company: Accolite – BFSI

About Us:

Bounteous is a premier end-to-end digital transformation consultancy dedicated to partnering with ambitious brands to create digital solutions for today's complex challenges and tomorrow's opportunities. With uncompromising standards for technical and domain expertise, we deliver innovative and strategic solutions across Strategy, Analytics, Digital Engineering, Cloud, Data & AI, Experience Design, and Marketing.

Our unique Co-Innovation methodology is designed to align interests and accelerate value creation. Clients around the world benefit from the expertise of over 4,000 team members across the Americas, APAC, and EMEA. By partnering with leading technology providers, we create transformative digital experiences that drive customer engagement and business success.

About the Role:

Join Bounteous as a Graduate Software Developer and work with an agile team to design, develop, and maintain cutting-edge software for the financial services sector. This hybrid role (3 days on-site) offers the opportunity to contribute to innovative projects while building your skills and expertise.

Key Responsibilities:

Collaborate with clients in the financial services sector to understand business needs.
Follow the software development lifecycle (SDLC).
Write clean, maintainable code and ensure adherence to quality standards.
Troubleshoot, debug, and update production systems.
Document solutions and support onboarding for new engineers.
